AI4Science Summer Camp

July 13-27, 2026 | University of South Carolina and Online

Day 1 - Monday, July 13 | Onsite

550 Assembly Street, Room 1400 (First Floor), University of South Carolina

Time	Session	Lead
9:00-9:20	Overview of Summer Camps	M. Hu
9:20-10:00	AI for Science Introduction	J. Hu, M. Hu
10:00-11:00	Introduction to AI for Science Problems	M. Hu, J. Hu, S. Garashchuk
11:00-11:20	Introduction to Machine Learning and AI	F. Agostinelli
11:20-12:00	Q&A; with professors and graduate-student TAs	
12:00-1:00	Lunch (on your own)	
1:00-1:40	HPC Facility Visit	P. Sagona
1:40-2:30	HPC Usage Tutorial	P. Sagona
2:30-3:30	Programming Environment Setup Tutorial	TAs
3:30-4:00	Teambuilding	

Days 2-6 - Tuesday-Saturday, July 14-18 | Online

Time	Program
9:00-12:00	**Morning tutorials:** Jul 14 - Python Scientific Computing; Jul 15 - Machine Learning & AI with Python; Jul 16 - Composition- and Structure-Based Property Prediction; Jul 17 - Molecular Property Prediction; Jul 18 - Generative AI for Structure Generation.
12:00-1:00	Lunch break
1:00-4:00	Exercises based on the morning session; online TA assistance

Days 7-11 - July 19-26 (except Sunday) | Online

Time	Program
9:00-12:00	Final-project work; online TA assistance
12:00-1:00	Lunch break
1:00-4:00	Final-project work; online TA assistance
July 26	Prepare final-project slides and report; submit to the committee at ai4sciencescamp@gmail.com.

Day 12 - Monday, July 27 | Onsite

550 Assembly Street, Room 1400 (First Floor), University of South Carolina

Time	Closing Program
9:00-11:30	Final Project Presentations
11:30-12:00	Certificate Distribution
12:00-12:30	Camp Research Star Award Announcements
12:30	Camp concludes
